

# Invitation

## Strate GIBS Fintech Innovation Conference 2017

**Robotics, Artificial Intelligence, internet of things, big data analytics, machine learning, distributed ledger and blockchain technology are all disrupting the markets and businesses.** The banking and finance sector itself could be disrupted by new entrants and new technology - FinTechs.

FinTech companies are businesses that leverage on new technology to create new and better financial services for both consumers and businesses. They are disrupting the way ordinary people manage and use money and these fintech players can either be a threat or a partner with the traditional and established financial institutions.

To provide you with a holistic understanding of the impact emerging FinTechs will have on the future of financial services, GIBS in partnership with Strate, brings you the Fintech Innovation Conference.

### Topics include:

- Disruptive technologies - Challenges and opportunities;
- Harnessing FinTech innovation to remain relevant to customers and competitive in market;
- Various models for FinTech integration;
- How banks and FinTechs can collaborate;
- The future of financial transactions and integration - Partnerships, design thinking and customer centric innovation;
- How the best business leaders disrupt themselves; and
- Showcase of cutting edge FinTech innovations which are disrupting and changing the face of financial services.

Speaker companies confirmed include **Dimension Data, EY, Thomson Reuters, Citi South Africa, Mastercard, Matchi, RMB, MTN, EasyEquities, FinFind, MyBucks, ThisIsMe, ABSA and TransUnion.**

**Date:** Tuesday, 22 August 2017

**Venue:** GIBS campus, 26 Melville Road,  
Illovo, Sandton, Johannesburg

**Time:** 07h30 - 16h00

**Fees:** R4 600 per delegate
